Museum Campus
Chicago Park District

Design | Lead:

- Coordination of the design with the Chicago Park District
- Review of the Landscape Design
- Construction management consultation

Chris Gent | Landscape Studio

Client: City of Chicago

Project Date: 1995-1996

Budget: NA

Prime Consultant: Teng and Assoc.

Working as a consultant to the City of Chicago's Department of Transportation, Gent reviewed and coordinated design issues with the Chicago Park District during the design and construction phases of the job to insure, amongst other things, that the plants proposed were both appropriate for the historic Grant Park and met the city's salt tolerant design guidelines. During construction Gent approved, oversaw and inspected the installation of the planting in the park and median.
